SOIL EROSION & SEDIMENTATION CONTROL WAIVER PERMIT AFFIDAVIT

Part 91, Act 451, Public Acts of 1994

I, _____ swear and affirm that the property for which SESC permit is being applied for meets the following criteria and requires only a waiver of necessity.

- 1.) The excavated area on said property is less than 1 acre (43,560 sq.ft.)
2.) The excavated area is not located within 500 ft. & of the State of Michigan Waters, which includes: a lake, pond, stream, county drain, or wetland, wholly or partially in Genesee County.

RULES TO BE APPLIED:

- 1.) Excavation is to be confined to immediate building site.
2.) All wetland areas, lakes, streams, or county drains are to be protected from soil runoff and erosion.
3.) Storm sewer inlets and all catch basins in front or on site are to be covered with filter fabric material.
4.) The back of all curbs or ditch line is to have silt fence, trenched a min. of 6", to keep soil out of the streets.
5.) Only one construction entrance to the site, crushed stone shall be used to keep vehicle tracking of soil off the streets.

** Note **

This waiver affidavit does not relieve the applicant from compliance with the requirements of Part 91 of Act 451 of the Public Acts of 1994. The Drain Commissioner's Office - Division of Water and Waste Services reserves the right to revoke this waiver and require the applicant to obtain a Soil Erosion Control Permit if it determines the applicant to be in violation of any above said rules.

Applicant must supply the following information on a site plan in order to receive a waiver or apply for a permit:

- Soil erosion control measures that will be used
• Legal deception of the property.
• Size of earth change and location of work being done on property.
• Location of property to nearest major cross roads.
